

Family Outcome 2017-2018

About Gains

Family progress checkpoints were obtained in the fall of 2017, midyear (January/February), and in the spring around April. New families enroll into Head Start/Early Head Start throughout the year at different times allowing some families to only have had two check points but still made progress!

The life areas represented in the chart are tied to the National Head Start “Parent, Family, and Community Engagement Framework (PFCE)” Family Outcomes. A recorded number of 506 families are represented in the attached graph. As documented families displayed gains in areas with the exception of relationships (couples), . Most families reported gains and increased their level of stability. Some individual families gained in numbers as high as 8% to-15% across the board.
